

## Cabrillo Log format for the PACCdigi contest

Since the Cabrillo notating is needed to email or send the logfile to the robot some examples are provided here.

The positions of the QSO data follows the first scheme. Please ensure that your Cabrillo file includes this information. For the Multi-Two category, the last column in the log indicates which transmitter made the QSO, a 1 or a 2. The items are separated by spaces.

	1	2	3	4	5	6	7	8
