# HAPPY 1987!

VHSC-Bulletin nr. 10, December 1986.

Dear VHSC-Members,

This VHSC-Bulletin will be sent to all VHSC-Members, with kindly helping hands of HA3NS, RA6AR and YU2WJ! Thank to all contributions, donations and other fb support, brought forward by VHSC-Members, we are very pleased to issue this VHSC-Bulletin!

Thank you very much for all your voluntarily help for VHSC!

A sincere word of thanks is addressed to PAoINA, who made the address-labels for the mailing!

New VHSC-Members: We welcome our friends: (9 Dec. 1986)

At present we have 223 VHSC-Members!

VHSC 1H. The VHSC-Committee-Members PAoLOU and DL6MK proposed to grant PAoDIN the Honorary VHSC-Number 1H. With VHSC-Bulletin Nr. 9 all VHSC-Members have been invited to give their reactions. A considerable amount of VHSC-Members supports the proposal, there are no negative reactions.

It is with proud and a lot of pleasure that I accept this VHSC-Nr. 1H !  
Thank you, it's fine to be with you as a VHSC-Member!

PA6VHS was QRV from 1.V.86 until 30.X.86, with kind permission of the Dutch PTT. The special station was operated by PAoINA, PAoLOU and PAoSOL. They made nearly 4000 QSO's! Well done, Frans, Louis and Bob! Thank you for the good work, it is a nice publicity for VHSC!

All QSO's with PA6VHS will be confirmed by a special PA6VHS-QSL.  
In the EUCW-QSO-Party 1986 PA6VHS (operator PAoINA) was winner!

SUPPORT VHSC, START WITH MAKING QSO'S !!

Congrats!

VHSC Ceramic Plaquette. Commemorating 25 Years VHSC the VHSC Ceramic Plaquette will be awarded to the VHSC-Member who QSO-ed the highest number of other (different) VHSC-Members during the period 1 June 1986 0001 UTC until 31 May 1987 2359 UTC, all bands, CW only. (PA6VHS counts for the operator at that time). Send your log, showing log-data checked by 2 licensed radio-amateurs, to the VHSC-Secretary. Dead-line: 1 July 1987, postmark.

We heard that YO3CD, Mar, already QSO-ed 97 different VHSC-Members! (By the way, Y62QH QSO-ed 70 different VHSC-Members in a period of 4½ months, for his VHSCJA).

The VHSC Ceramic Plaquette is sponsored by the VHSC-Secretary, there are no costs for the winner.

Sponsoring for VHSC. From time to time I hear complaints from VHSC-Members concerning certain cases of sponsoring for VHSC. Actually I can't do much more than prove the 4 (or more) sponsor-QSL's. If they are ok, the applicant becomes a VHSC-Member, according the rules.

However, we should agree upon the fact that sponsor-QSL's must mention the duration of the test-QSO and the CW-speed of 40 wpm or more (Paris-base).

Most of the sponsor-QSL already fulfil these data. So, from now on, only sponsor-QSL's mentioning DURATION OF TEST-QSO and SPEED OF 40 WPM OR MORE will be accepted.

Once again I ask you to sponsor very carefully. Only sponsor after more QSO's. Don't kill VHSC! (Pse realize that your VHSC-friends are QAP when you make a test-QSO!).

From the VHSC-Members:

- F2XX, VHSC 221, Jean-Claude is ex-6W8XY and ex-F08KP.
- YU3HAM, VHSC 191: Srecko has changed his call: now YT3AM.

What else?

- Super High Speed Club SHSC is a new member of EUCW!
- also Belgian Telegraphy Club BTC and Union Francaise des Telegraphistes UFT became EUCW-Member in 1986!
- European CW Meeting 1987, organized by AGCW and HSC: this event will be held on April 18/19 1987 in Buedingen (near Frankfurt, FRG). It's a popular meeting, last year we have met a lot of DL-VHSC-ers and also G4ILW, OZ1III, OZ1KHZ and PAoINA! Though not within reach for all VHSC-Members: try to attend! Details (position of Buedingen, list of hotels, etc.) may be requested at DL6MK, VHSC 99, Am Eichhölzchen 33, D-3501 Ahnatal, Fed. Rep. of Germany.
- It's always good to listen to QTC of DLoHSC, first Saturday of each month at 1500 UTC on 7025 kHz in English and at 2100 UTC on 3555 kHz in German language. Join the ZAP (QSL-traffic after QTC)! Operator at DLoHSC is Tom, DL2FAK, VHSC 72, who was nominated as HSC-Operator of the Year 1985!
- Since most of you are also HSC-Member: join the HSC-Contests! Last Sunday in February and first Sunday in November, 0900-1100 UTC and 1500-1700 UTC. (RST+QSO-Nr+HSC-Nr.) Logs to DK9OY, VHSC 88.
