HIGH SPEED TELEGRAPHY CHAMPIONSHIP IARU REGION 1.

During the first weekend of October 1991 the second Indoor High Speed Telegraphy Championships of IARU Region 1 took place at Neerpelt, Belgium, with participants coming from DL, HA, HB, LZ, OK, DN, PA, U and YG.

Amongst the contestants in the national teams we saw several VHSC-ers: DK5JI, HA3NS, HA3NU, HA3OV, HB9CSA, PA3BWK, PA3DCO and ON5ME (member of the jury).

The atmosphere during the event was excellent, I guess mainly initiated by the VHSC-ers, because they really do know that CW=FUN !!

Big winners were the crew-members of U, followed by YG on the second place and the HA-crew on a nice third place! HA3NU, VHSC 165, was placed first and HA3NS, VHSC 174, second in the category "senior-QM, reading by ear"!!

Hochgeschwindigkeitstelegrafie ist eine seltene Kunst.
QRQQ-Freaks treffen sich tagsüber bei 7024 kHz und
abends bei 3572 kHz. Seid nicht bange und ruft herein!

← FROM CQ-DL OF DARC!

FROM OUR VHSC-PRESIDENT PAoLOU, also Chairman IARU Region 1:

The future of amateur radio is threatened by many factors, one of them being the ongoing commercialisation of the management of the spectrum. IARU is fighting an uphill battle against many commercial interests.

Arising from the increasing commercial pressure, ITU is changing its structure and in the future there will no longer be general WARC's like the one that we had in 1979, but there will be more special ITU-meetings, (probably mini-WARC's or with a different name), that will be dealing with smaller sections of the spectrum and which might be held every 2 years or so.

This requires a constant alertness and activity from IARU. It requires more money and more man-power in order to fulfil this vigilance. It is therefore necessary that IARU has the support of each and every licensed amateur. How can each amateur lend this support? By supporting his national IARU society!!

ANNUAL REPORT VHSC 1991.
